Industry-leading Service Offering

"The fact that we have UPS[®] as a partner was a big deal to me. I was looking around the industry at other 3PL companies and noticed they didn't have that component. This is something that makes us stand out."

— Neil Dibiccari

Residual Income Potential

"When I was 22 and I started selling, I just called business owners and three weeks later, they were shipping with us and sending us checks. It's easy to get addicted to that and then it steamrolls from there."

— Mark Hudson

87% of franchises rank the long-term growth opportunity of a Unishippers franchise as strong to very strong*

Administrative Support

"The outsourced admin team is at the top of the list for growing and supporting my business. Since they are providing freight, UPS, billing and general customer support directly to our customers, I can focus on growing my business"

— Jeff Corte

Top Sales Training

"The training was great at the front end. I really like the format and wouldn't change anything that they do. I think that Unishippers gets a grade of A+ on training."

— Rich Pyle

Geographic Flexibility

"Unishippers' national franchise model gives me the flexibility to grow my business more easily. Without geographic restrictions, I am empowered to leverage existing customer relationships to expand my customer base regardless of location."

— Kevin Biagi

Low Start-Up Costs

"Would I recommend a Unishippers franchise? Absolutely. This model is scalable and with little overhead. You don't have to have a retail location or purchase any trucks. All you need is a computer and phone, and you can get started."

— J.P. Budd

In addition to being named a Top Low-Cost Franchise, applicants can qualify for 50% off the initial franchise fee if they meet the eligibility requirements of our Diversity Ownership Program.
